

TRURO START PROGRAM

Where **small classes** meet **big impact**

Dalhousie's Agricultural Campus in Truro offers first year courses in Science, Computer Science, Arts, and Recreation Management.

Starting your first year in Truro gives you the opportunity to join a group of classmates with dedicated resources and support to build a strong foundation in your chosen field before transitioning into your second and final years in Halifax.

Dalhousie's Agricultural Campus in Truro offers a variety of unique programs from environmental sciences, aquaculture, animal science, agricultural business and much more. Visit dal.ca/think-agriculture to learn more about our campus and the programs offered.

DALHOUSIE
UNIVERSITY

62 Cumming Dr, Bible Hill
Nova Scotia B2N 5E3

Why start here?

There are many reasons to spend your first year at Dalhousie's Truro campus:

- Guaranteed a room in residence*
- One-on-one advising to build strategies for success
- Live in a small, active town with cafés, restaurants, hiking, and more
- Student support and resources provided when transitioning to the Halifax campus in your second year
- Smaller class sizes in first year courses such as Biology, Chemistry, Computer Systems, Sociology, Psychology, and Mi'kmaw Natural Resources.

**You will be guaranteed a room in residence at Dalhousie if you are a new, direct from high school domestic or international student and have a completed residence application on file by May 1. Priority access will be given to Indigenous students (especially Mi'kmaq), African/Black students (especially Historical African Nova Scotians), and students with disabilities or medical conditions affecting housing needs.*

Available Programs

BACHELOR OF COMPUTER SCIENCE AND BACHELOR OF APPLIED COMPUTER SCIENCE

Develop the technical, problem-solving and leadership skills needed to create and use new technology to empower people, organizations, and society.

BACHELOR OF SCIENCE

Grow your strengths and passion for science in a university experience rich with exploration, experimentation, skill-building, and scientific knowledge.

BACHELOR OF ARTS

Explore what it means to be human, open new doors, and gain versatile skills. Build the ability to think critically about the world and express yourself creatively and effectively.

BACHELOR OF SCIENCE (RECREATION)/ BACHELOR OF MANAGEMENT

Earn a Bachelor of Science in Recreation and a Bachelor of Management. You'll have the business know-how and recreation management skills you'll need to start an exciting career in the growing recreation and leisure service industry.

Indigenous Student Access Pathway Program (ISAP)

Our one-year program offers First Nations, Métis, and Inuit students an opportunity to complete university courses in our culturally supportive and friendly campus.

Contact Keah Gloade, Manager Indigenous Students for more info at: keah.gloade@dal.ca
